COMMUNITY NOTICE

How rural winter maintenance works in your community

Winter maintenance in rural communities is done by municipal contractors, and includes:

- Snow plowing and snow removal.
- Sanding/salting asphalt roadways whenever needed to create a safe driving surface.

Snow plowing in your community:

- Primary (high-traffic) roads are plowed within 24 hours of snowfall.
- School routes will be plowed within 24 hours for easier school pick-up and drop-off.
- Secondary roads are plowed within 48 hours.
- Gravel roads are plowed within 72 hours.
- Contractors will try to remove windrows (snowbanks) at residential and commercial driveways where possible.

Snow removal in your community:

- Contractors start snow removal when snowbanks are too high and block safe sightlines at intersections.

Help your community with winter maintenance:

- Remove garbage and recycling bins from the roadside to leave room for plowing.
- Do not shovel/push snow onto the road or into ditches, as this creates flooding issues in the spring.

Skate closer to home: Build a backyard rink this winter!

With winter around the corner, it's time to get ready for skating season.

The Community Backyard Rink program makes it easy for you to create temporary ice rinks on municipal property in your neighbourhood, helping families embrace winter safely.

Get started

Getting your community backyard rink started is simple. Begin by reading through the online guide at rmwb.ca/CommunityRinks. This guide includes information and tips on the application process and building and maintaining your rink.

Approved applicants will be provided with insurance coverage under the Municipality's insurance policy.

Any unauthorized structures are subject to fines and removal.

Apply online

Applications are open all season, but rinks should be constructed by Dec. 31. Apply online through our E-Permitting portal at rmwb.ca/CommunityRinks.

For questions, contact Pulse at 780-743-7000 or online at rmwb.ca/pulse.
